LawTech Group - The Power of Two

LawTech Custom Publishing, Inc. and LawTech Publishing, Ltd. have joined forces to produce only the highest quality college textbooks, criminal justice field reference guides, promotional study guides and legal reference manuals. Our sole purpose is to provide quality books, in various formats. Not many companies, if any, specialize and flourish in all of these various fields of criminal justice.

LawTech is primarily a family owned business with a philosophy that works for individuals as well as companies; treat people the way you want to be treated. Our vendors enjoy an honest, loyal relationship with us; however, they know we strive not only to provide the best quality products, but to do so at the best price. Likewise, to our customers, we commit our company's resources to producing quality publications at the most competitive price.

Forensic Science Kit for Biological Evidence

LawTech's newest forensic science kit is for *Biological Evidence*, authors Dr. Ann Bucholtz and Jon Lewis. Based on the success of our previous forensic kits, the new Biological Evidence kit promises to be a great enhancement for student learning.

The new kit will include:

- Simulated ABO Blood Typing
- Luminol Detection with Simulated Blood
- Narcotics Lab
- Introduction to Toxicology Lab

All of these are designed for use in non-laboratory classrooms. Delivery is schedule for early Summer.

Future kits are in development for Crimes Against Persons, Crime Scene Documentation, Crime Scene Photography, Criminalistics, Evolution of Narcotics Investigations, and Weapons of Mass Destruction (honest!!).

Featured Authors: Michael King and Gregory Cooper -

Cold Case Methodologies

This text is designed to provide students with an overview and practical understanding of the processes, theories and investigative techniques of Cold Case Investigations. Operative and sequential procedures that lead to successful closure of Cold Cases are also examined. Covered areas include: development of cold case units, solvability factors, review and evaluation of evidence, and the basic and advanced technological methods employed by Cold Case squads.

Softcover 248 pages ISBN 1-889315-55-99

Greg Cooper is the Manager of the Investigative Support Services Division of Motorola, Inc., overseeing the development of intuitive investigative software applications, as well as providing on-site training and consultation to law enforcement agencies worldwide in crime analysis, criminal behavior and police administration. He retired from law enforcement having served in a range of positions including; Assistant Federal Security Director for Law Enforcement in the Department of Homeland Security; Chief of Police in Provo, Utah and Supervisory Special Agent, Federal Bureau of Investigation. During his career with the FBI he served as the supervisor of the Investigative Support Unit (Criminal Profiling) in the Critical Incident Response Group; National Program Manager of the Violent Criminal Apprehension Program (VICAP) at the National Center for the Analysis of Violent Crime, and as an FBI National Academy Instructor of Criminal Psychology and Criminal Investigative Analysis in the Behavioral Science Unit, FBI Academy, Quantico VA. Before joining the FBI he also served as the Chief of Police in Delta, UT and started his law enforcement career in Provo, UT as a police officer.

Greg has consulted as an FBI Profiler on over 1,000 violent felonies and has instructed at the Utah Police Academy, Utah Valley State College, Salt Lake Community College and the University of Virginia. Greg is an international speaker, consultant and a published author. He has testified as an expert witness in crime scene analysis and criminal investigative analysis. He has participated in multiple appearances for the news media as an expert commentator on criminal cases including the Discovery Channel, MSNBC, and Fox News.

Mike King is a Senior Investigative Analyst for Motorola, Inc., working on intuitive investigative software applications as well as providing on-site support and training to law enforcement agencies worldwide in crime analysis and criminal behavior. He retired from full-time law enforcement in 2004 with 25 years of service and is still a sworn officer doing analytical work for the Ogden City Police Department. During his law enforcement career, Mike attained the rank of Lieutenant and was appointed Chief of Staff in the Utah Attorney General's Office with a staff of over 400 legal and law enforcement professionals. His law enforcement experience includes patrol, investigations, and administration at the city, county, and state levels of government.

Mike served in the Intelligence Unit of the 2002 Winter Olympic Games as the federal liaison. Prior to that, he was the Director of the Utah Criminal Tracking and Analysis Project and served a 3 year assignment on the FBI VICAP (Violent Criminal Apprehension Program) National Board as the co-chair. Mike is an adjunct professor at Weber State University and Salt Lake Community College. He is the recipient of the 2002 NAPO "Top Cop" award and the 1989 National Police Officer of the Year award and has a Master of Criminal Justice degree and a Bachelor of Arts degree in Criminal Justice and Communications. Mike is the published author of several books and has appeared on documentaries for

the Discovery Channel and A&E's History's Mysteries. In addition to his consulting responsibilities, Mike is an international featured speaker and trainer.
